

HEAVY DUTY DEGREASER

The water based degreaser formula can be used in a wide variety of applications such as engines, chassis, machinery, floors and paving. It is ideal for areas where highly flammable chlorinated and toxic products are prohibited and can be used with high pressure washers. This has been developed to dilute with water for different applications.

Nothing cleans like Citronol

Citronol manufactures hand cleaners, general purpose cleaners, barrier creams and degreasers for the industrial, commercial and retail markets. We specialise in product formulas that have industrial cleaning strength, but are still user friendly and biodegradable.

PREMIUM DISHWASH LIQUID

Citronol Premium Dishwash Liquid has been formulated as a thick liquid soap for cleaning cutlery and crockery. It has been developed to dilute with water. The high density formula is concentrated for powerful grease cutting action, foaming and economical usage.
